Summary

Motivated Full Stack Web Developer with experience in developing responsive web applications using React.js, Next.js, PHP, Python, and Tailwind CSS. Skilled in frontend and backend development with foundational knowledge of AI/ML using TensorFlow and Keras. Passionate about building scalable, efficient, and user-friendly applications through modern web technologies.

Experience

Web Developer Intern Jun 2026 – Sep 2026
Curl Labs Pvt. Ltd. *Bhaktapur, Nepal*
- Completed a three-month internship program, accomplishing all the tasks required for the Web Developer position.
- Recognized by the company for strong work ethic, leadership, and team player skills.

Education

Padma Kanya Multiple Campus Kathmandu, Nepal
Bachelor of Computer Applications (BCA) *2022 – Present*
Whitehouse International College Kathmandu, Nepal
Higher Secondary Education – Management Stream (10+2) *2020 – 2022*
Jaycees Secondary Boarding School Kathmandu, Nepal
Secondary Education Examination (SEE) *2007 – 2020*

Projects

TumorDetect | *Flask, TensorFlow, Python*
- Developed a Flask-based web application that uses TensorFlow for MRI brain tumor classification, applying AI/ML to a real-world healthcare problem.
- Designed the end-to-end pipeline from image preprocessing to model inference and result visualization within a user-facing web interface.

Job Portal System | *PHP, MySQL, JavaScript*
- Built a full-stack job portal tailored for the Nepali recruitment market, supporting job listing, candidate profiles, and application management.
- Implemented backend logic in PHP with MySQL for relational data storage, and dynamic front-end interactions using vanilla JavaScript.

Netflix Clone | *React.js, Firebase*
- Created a full-stack Netflix clone featuring user authentication, protected routes, and streaming UI components using React.js and Firebase.
- Implemented Firebase Authentication for secure login/signup and Firestore for real-time data management.

Trekking Nepal Website | *Next.js, Tailwind CSS, TypeScript*
- Developed a premium trekking expeditions website for Nepal using Next.js and Tailwind CSS.
- Used TypeScript for type safety and a maintainable codebase, built up over 91 commits on GitHub.

Hackathons & Participation

Code Competition Hackathon Participant 2024
Web Development Hackathon *Kathmandu, Nepal*
- Collaborated with a team to design and develop a web-based solution within a limited time frame.
- Built a functional prototype using modern web technologies and presented the solution successfully.
- Gained practical experience in teamwork, rapid development, and problem-solving under pressure.

Technical Skills

Frontend: Next.js, React.js, Tailwind CSS, TypeScript, JavaScript, HTML5, CSS3
Backend: Node.js, PHP, Python, Django, Flask
Database: MySQL, MongoDB
AI/ML: TensorFlow, Keras
Languages: Python, JavaScript, Java, C, C#
Tools: Git, VS Code
Languages (Human): English (Fluent), Nepali (Native), Hindi (Fluent), Maithili (Native)
